

HILL CLIMB

Timing mats were placed at Mile 9 (Bottom of Hill) and at 10.2 (Downward side of Hill). Times are converted to seconds. Column C is the total number of elapsed seconds from the start to the bottom of the hill. Column D is the total number of elapsed seconds from the start to the top of the hill. Column E is total clock time in seconds for 13.1 miles. Column F is the net time in seconds for the 13.1 miles. Column H is the net time of the hill climb divided by the net time for 13.1 miles. This number is multiplied by 100 to determine a percentage. The lower the percentage, the better the runner was on the hill in relation to his total time. Column G is his/her actual place in the race.
